Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Thursday 14 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Bright and breezy. Rain possible in north later.

Today:
A dry and bright day with the best of any sunny spells likely to be towards the east. Breezy at times, especially over the Pennines and Cheviots. Cloudy from the north later, with some rain possible by dusk. Maximum temperature 14 deg C (57 deg F).

Tonight:
Cloud and outbreaks of rain moving south overnight. Clear skies developing for most through the early hours, but scattered showers may affect coastal regions. Feeling cooler. Minimum temperature 6 deg C (43 deg F).

Friday:
Dry and bright on Friday with long periods of sunshine throughout, any remaining coastal showers soon dying out. Feeling cooler than of late. Maximum temperature 10 deg C (50 deg F).

Outlook for Saturday to Monday:
Dry and bright for much of Saturday, rain overnight. Cloudy with mainly light rain Sunday. Turning windier through Monday, with outbreaks of rain perhaps heavy at times. Milder.
